

AGRICULTURAL SCIENCES

Title	Author	Institution
Different graph strategies for selecting animals to be genotyped in animal breeding programs	Alana Selli	Universidade de São Paulo – FMVZ
Evaluation of plasma glucose peak and animal performance as a function of liquid diet	Amanda Moelemberg Cezar	Universidade de São Paulo – ESALQ
Clinical and laboratory aspects of seropositive cats for leishmania spp.	Ana Flavia Rocha da Silva	Universidade de São Paulo – FZEA
In vitro evaluation of methane mitigation with the use of monensin and ammonium nitrate in beef cattle diets	Ana Paula Taroza	Universidade de São Paulo – FZEA
Recovery of Carbon stocks by Technosols built for the rehabilitation of dolomitical limestone caves	Beatriz Marchese Silva	Universidade de São Paulo – ESALQ
Production of didactic models 3D to represent the clinic evolution of osteoarthritis in the coxofemoral joint of dogs	Beatriz Ribeiro Gaspar	Universidade de São Paulo – FMVZ
Supercritical Fluid Extraction of Sunflower Seed Oil	Beatriz Satie Yamada	Universidade de São Paulo – FZEA
Characterization of fecal microbiota of diabetic dogs	Bettina Assis Di Donato	Universidade de São Paulo – FMVZ
Analytical procedure for screening of protein and fat contents in milk aiming at detecting adulteration	Bianca Bacellar Rodrigues de Godoy	Universidade de São Paulo – CENA

International Stage – March 2021

Decellularization of domestic cat placenta (<i>Felis catus</i>): Evaluation of the decellularized extracellular matrix	Camila Mika Iashima	Universidade de São Paulo – FMVZ
Organic reserves in pastures of <i>brachiaria decumbens</i> cv. basilisk discovered fertilization regimes and defoliation severities	Cynthia de Carli	Universidade de São Paulo – FZEA
Automatic pain assessment on horses using facial recognition	Gabriel Carreira Lencioni	Universidade de São Paulo – FMVZ
Genetic correlations between carcass and reproductive traits in composite beef cattle	Gabriel Costa Medeiros	Universidade de São Paulo – FZEA
Volatile composition of cachaça produced from the recycle of fermentative cells	Gabriela Guatura Troncoso	Universidade de São Paulo – ESALQ
Determination of partition coefficient in systems composed of soybean submitted to different pre-treatments and alcoholic solvents	Guilherme Barao da Cunha	Universidade de São Paulo – FZEA
Visualization and integration of biological data related to animal science using R language and business intelligence tools (BI)	Gustavo Henrique Tito da Luz Anezio da Silva	Universidade de São Paulo - FMVZ
Lipid microcapsules formation of artichoke leaves tincture with beeswax and avocado oil.	Isabella Rodrigues Mothe	Universidade de São Paulo – FZEA
Evaluation of behavioral stress during mechanical milking in primiparous Lacaune sheep.	Júlia Luiza Silva Inácio	Universidade de São Paulo – FMVZ
Estimation of herbage mass in mavuno grass for the purpose of forage budgeting	Karen Baldin	Universidade de São Paulo – FZEA
Correlation of the muscle proteome with meat quality from Angus x Nellore cattle finished in different finishing systems and weight gain rates	Larissa Alves Koulicoff	Universidade de São Paulo – FMVZ

International Stage – March 2021

Expression of Tipe I Interferon receptor transcripts in leukocytes of peripheral blood during early pregnancy in heifers	Leonardo Marin Ferreira Pinto	Universidade de São Paulo – FMVZ
Impacts of nitrogen fertilization on forage production of mavuno grass pastures	Leticia Lipi Mello	Universidade de São Paulo – FZEA
Effect of low stress handling on indicators of behavioral and reproductive efficiency at TAI in Nellore heifers	Ligia Mattos Rebeis	Universidade de São Paulo – FMVZ
Extracellular vesicles supplementation during oocyte in vitro maturation have the potential to modulate gene expression in produced blastocysts	Luca Angi Souza	Universidade de São Paulo – FZEA
Reproductive patterns drive the gene flow of euschistus heros (fabricius) (hemiptera: pentatomidae) in Brazil	Lucas Ardiani	Universidade de São Paulo – ESALQ
Development of a low cost device for evaluating the thermal comfort of production animals	Marcos Vinicius Amato da Cruz	Universidade de São Paulo – ESALQ
Comparison of active optical sensors for biomass estimation of brachiaria ruziziensis	Marcus Vinicius Elias Carreira	Universidade de São Paulo – ESALQ
Association of agregação e virulence characteristics of strains of Xylella fastidiosa subsp. pauca with vector acquisition and transmission efficiency	Maria Fernanda Verissimo de Oliveira	Universidade de São Paulo – ESALQ
Growth evaluation of peltogyne paniculata benth. trees (roxinho) in flona jamari, ro, brazil, by dendrochronology	Nathan de Oliveira Barreto	Universidade de São Paulo – ESALQ
Space-time variation of the ground cover and management factor (factor c) of the main land uses in the cerrado	Nely Vitoria Santana da Frota	Universidade de São Paulo – EESC
Arrhythmias in dogs of defined breed	Pamela de Moraes	Universidade de São Paulo – FZEA

International Stage – March 2021

Analysis of complementary parameters based on immune profile for prognosis of dogs with cutaneous mast cell tumor	Paula Kawamura Bernardi	Universidade de São Paulo - FMVZ
Genetic and behavioral characterization of a kmt2d mouse mutant, a new model for kabuki syndrome	Pedro Kenzo Yamamoto	Universidade de São Paulo – FMVZ
Sulfur sources in ratoon	Pyetra Bergonsini Ardana	Universidade de São Paulo – ESALQ
Statistical tests used in discriminative methods in sensory analysis	Queila Hadna Rezende	Universidade de São Paulo – FZEA
Popsicles of sugarcane juice with passion fruit as an alternative for probiotics consumption	Ramon Peres Brexo	Universidade de São Paulo – FZEA
Optimization of ultrasound-assisted extraction of phytochemical compounds from carrot by-products	Sabrina Guarda Botelho Pinho	Universidade de São Paulo – FZEA
Applications of statistical tests in discriminative methods in sensory analysis	Sarah Dias Pereira Rosa	Universidade de São Paulo – FZEA
Microbiota of dogs with inflammatory bowel disease supplemented with B-glucans and a prebiotic blend	Thaís Araújo Esteves Pereira	Universidade de São Paulo – FMVZ
Characterization of energy productivity of different genetic materials of energy cane	Victor Kaina Cerqueira de Souza Alves	Universidade de São Paulo – ESALQ
Effect of updt polymer dosages on the establishment and survival of eucalyptus urograndis seedlings	Yago Pereira da Silva, Roberto Yan Lopes Ricci e Giovanni Simionato Ometto	Universidade de São Paulo – ESALQ
Production and nutritive value of Tithonia diversifolia as fodder for sheep	Yasmin Jabr Abdel Jabbar	Universidade de São Paulo – CENA

International Stage – March 2021

Second season maize yield in Piracicaba under climate change scenarios	Ygor Nicolás Pereira de Sousa	Universidade de São Paulo – ESALQ
--	-------------------------------	-----------------------------------

BIOLOGICAL SCIENCES

TITLE	AUTHOR	INSTITUTION
Sex-differences of local treatment with CBD in Orofacial muscular pain - Animal Model of Parkinson's Disease	Airam Nicole Vivanco Estela	Universidade de São Paulo – FORP
Quantitative morphology applied to the evaluation the effects of Silver nanoparticles upon the microcirculation of the chorioalantoic membrane of chicken embryo	Alveriane Felix Carvalho	Universidade de São Paulo – FCF
Use of uv-vis absorption and fluorescence in the study of nanocomposites based on propolis of melipona quadrifasciata and halloysite nanoclay for the development of advanced nanomaterials.	Ana Beatriz Sanches Brito	Universidade de São Paulo – EACH
Development of molecular tools for the study of succinate receptor function	Andressa Mayara dos Santos	Universidade de São Paulo – FMRP
Role of inos on the renal alterations induced by experimental sepsis in animals chronically treated with ethanol.	Arthur Henrique de Sousa	Universidade de São Paulo – EERP
Morphological and histological study of the respiratory system in relation to heart position in snakes	Barbara de Godoi Champini	Universidade de São Paulo – FFCLRP
Ahpc1 enhances pseudomonas aeruginosa virulence through reduction of oxidants generated during inflammation	Beatriz Pereira da Silva	Universidade de São Paulo – IQ
Ankhd1 inhibition reduces the clonogenicity and viability of triple-negative breast cancer cells	Bruna Oliveira de Almeida	Universidade de São Paulo – ICB

International Stage – March 2021

Role of NOX-4- derived Reactive Oxygen Species (ROS) in perivascular adipose tissue (PVAT): analysis in microvessels from ovariectomized and estrogen-treated hypertensives rats	Bruno Cesar Petroski Moraes	Universidade de São Paulo – FMRP
Evaluation of the fasting effect on the lipids transporters content located on the mice intestinal epithelium: short and long-term analysis.	Caroline Lopes Lira	Universidade de São Paulo – ICB
Reading between the lines: the alternative message of the rice transcriptome in response to heat stress	Charles Barros Vitoriano	Universidade de São Paulo – IB
Comparison of the Ribeirão Preto population ancestry inferred in the tri-hybrid and tetra-hybrid parents models.	Dimitry Ryuske Higashie Sinmon	Universidade de São Paulo - FFCLRP
The role of the helicase RecQ01 in the epigenetic memory of variant gene transcription in Plasmodium falciparum, the causative agent of malaria	Dominique de Jesus Almeida e Silva	Universidade de São Paulo – ICB
Analysis of genetic variability of crab eurytium limosum (say, 1818) (decapoda, panopeidae) along the Brazilian coast	Eloá Fernanda Santos	Universidade de São Paulo – FFCLRP
Spectroscopic characterization of stingless bee Propolis and its Interactions with Fullerene-Based Polymers for Advanced Nanomaterials Development	Enzo Jose Baptista Duo Junior	Universidade de São Paulo – EACH
Where does the latex of humulus lupulus (cannabaceae) come from? anatomical and histochemical analyses of the laticifers.	Felipe Paulino Ramos	Universidade de São Paulo – FCFRP
L-glutamine supplementation improves the response of specific antibodies against the influenza virus in elderly subjects physically active	Fernanda Rodrigues Monteiro	Escola Paulista de Medicina - Universidade Federal de São Paulo
A new asymptotic confidence interval for shannon index and comparison with bootstrap percentile interval.	Gabriel Rodrigues Palma	Universidade de São Paulo – ESALQ
Genetic variability of the crab sylviocarcinus pictus (brachyura, trichodactylidae) in the xingu river	Gabriel Simei Faganello	Universidade de São Paulo – FFCLRP

International Stage – March 2021

In vitro effect of yerba mate extract preadministration on the functional activity of mc3t3-e1 osteoblastic cells exposed to hydrogen peroxide.	Gabrielli Collasanto Ceverino	Universidade de São Paulo – FORP
Evaluation of the accuracy of two systems of prediction of phenotypes of eye and skin pigmentation in a Brazilian population sample	Hiago Airton Ferreira da Silva	Universidade de São Paulo – FFCLRP
Prognostic of the inflammatory profile in patients with Acute Respiratory Distress Syndrome	Ingyrd Carmona Garcia	Universidade de São Paulo – FFCLRP
Cloning and expression of Chimeric antigen receptor in lymphocytes	Isabela Fonseca de Oliveira Granha	Universidade de São Paulo – IB
Computational studies of new Aryl hydrocarbon receptor (AhR) antagonists, with potential atheroprotective efficacy in smokers	Isaque Antonio Galindo Francischini	Universidade de São Paulo – FCFRP
Stability study of a recombinant protein based on Plasmodium vivax Circumsporozoite Protein candidate for malaria vaccine	Janaina Tenorio Novais	Universidade de São Paulo – FCF
Does alkaloid composition vary in sympatric species of dendrobatidae (anura)?	Julia Albuquerque de Pinna	Universidade de São Paulo – IB
Magnetic Resonance Imaging markers in the pre-stage of Alzheimer’s Disease	Julia Palaretti	Universidade de São Paulo – FFCLRP
Cardiovascular profile of conscious freely moving mice after short-term sustained hypoxia	Juliana Reis Souza	Universidade de São Paulo – FMRP
Role of angiotensin II in binge drinking-induced changes in the oxidative status	Kathleen Aparecida Paulino	Universidade de São Paulo – EERP
Annotation of flowering-related genes involved in sugarcane-smut interaction	Laina da Silva de Oliveira	Universidade de São Paulo – ESALQ

International Stage – March 2021

Effects of adrenaline in cardiac muscle protein metabolism of rats submitted to food restriction	Leticia Andrade Costa	Universidade de São Paulo – FMRP
Effect of parasympathetic activation, by the bezold-jarisch reflex, in the inflammatory response induced by lps in unanesthetized rats	Luiz Gustavo Silva Cesarino	Universidade de São Paulo – FMRP
Osmoregulation in palaemonid shrimps (Decapoda, Caridea): a comparative investigation of physiological adaptation to fresh water	Luiza Grassi Villela	Universidade de São Paulo – FFCLRP
Use of sugarcane molasses as a substrate for the biogas production process	Maria Carolina Pastre	Universidade de São Paulo – ESALQ
Evaluation of pluripotency and self-renewal of mouse embryonic stem cells with differential expression of sti1	Maria Clara da Silva Souza	Universidade de São Paulo – ICB
Evaluation of the response of photodynamic therapy in 3d models of breast tumor using raman spectroscopy	Maria Júlia de Arruda Mazzotti Marques	Universidade de São Paulo – IFSC
Association between binge eating disorder and polymorphisms in DRD2 and BDNF genes in patients with weight regain after bariatric surgery	Mariana Barato	Universidade de São Paulo – FMRP
Establishment of an in vitro system for the study of the molecular interactions between sugarcane and <i>Sporisorium scitamineum</i>	Mariana Braga Strabello	Universidade de São Paulo – ESALQ
Effect of native plants over exotics in coastal sand dunes: a meta-analytical approach	Marina Bowkunovicz Marcon	Universidade de São Paulo – IB
Aversive conditioning and memory in the harvestman <i>mischnonyx cuspidatus</i> (arachnida: opiliones)	Marina Costa Rodrigues	Universidade de São Paulo – EACH
Mitochondrial proteostase during doxorubicin-induced cardiotoxicity	Marina Lóes Zinsser	Universidade de São Paulo – ICB

International Stage – March 2021

Comparative analysis of antibiotic resistance genes in the gut microbiota of healthy volunteers from distinct Brazilian populations	Marina Quintas dos Santos	Universidade de São Paulo – FCF
Characterization of monocytes subpopulation in covid19 patients	Marlon Fortes Rocha	Universidade de São Paulo – FMRP
Risk factors for developing kalazar: investigation of the roles of metabolic syndrome and of infestations with soil transmitted helminths and their associations with IgG Fc N-glycosylation profiles	Mateus Guilherme da Costa dos Santos	Universidade de São Paulo - FMRP
Recombinant expression and electrophysiological characterization of a toxin from tityus serrulatus venom	Nádia Mayumi Vilela Bartnick Tanaka	Universidade de São Paulo – FCFRP
Structural study and properties of xylans extracted from eucalyptus and sugarcane bagasse	Nathália Pereira Quirino de Sousa	Universidade de São Paulo – EEL
Adhesion efficiency of a. actinomycetemcomitans, s. gordonii and s. oralis on the acquired film	Nicole Stephanie Piteri Porto	Universidade de São Paulo – ICB
Identification and characterization of druggable hot spots of trypanothione reductase enzyme from trypanosomatids.	Olivia Teixeira	Universidade de São Paulo – FCFRP
Changes in Mitochondrial Morphology Modulate LPS-Induced Loss of Calcium Homeostasis in BV-2 Microglial Cells	Oswaldo Rodrigues Pereira Junior	Universidade de São Paulo – IQ
Behavioral characterization of the rodador mouse: a new mutation of the Pcdh15 gene as a model for Usher syndrome	Paula Caro Ferian	Universidade de São Paulo – FMVZ
Investigation of the products formed by oxidation of methionine via singlet oxygen and hypohalous acids	Rafaela Oliveira Nascimento	Universidade de São Paulo – IQ
Genomic selection in panicum maximum	Rafaela Prado Graciano	Universidade de São Paulo – ESALQ

International Stage – March 2021

Conserving the evolutionary history of rapid and recent radiations: a study case with an endemic clade in the campo rupestre	Raquel Cruz Pizzardo	Universidade de São Paulo – IB
Floristic diversity in rock outcrops ("campos rupestres") after fire management in Sempre Vivas National Park, Minas Gerais	Roberto Baptista Pereira de Almeida	Universidade de São Paulo – IB
Cardiac effects of binge drinking	Victor Oliveira Assis	Universidade de São Paulo – EERP
Search for therapeutic candidates against covid-19	Wasim Aluisio Prates Syed	Universidade de São Paulo – FMRP

HEALTH SCIENCES

TITLE	AUTHOR	INSTITUTION
Action of phytotherapics on oral squamous cell carcinoma cell lines	Adrieny Ullian Bastos	Universidade de São Paulo – FO
Cardiovascular effects of beetroot extract in bariatric surgery patients	Alessandra de Cassia Barros	Universidade de São Paulo – FMRP
Media and eating disorders: movies and documentaries analysis	Alessandra Honorio Boroski	Universidade de São Paulo – EERP
Organizational food environment and the promotion of healthy food: validation of content of an audit instrument for restaurants	Alice Imperatrice Ferreira	Universidade de São Paulo – FSP
Retrospective analysis of compared clinical outcomes in children and adolescents with portal vein thrombosis without cirrhosis in clinical or surgical protocols and systematic criteria of portal hypertension surgical repair	Amanda Anacleto dos Santos	Universidade de São Paulo - FM

International Stage – March 2021

Experiences in the use of the home insemination technique: an alternative to the conception	Ananda Kelly Silva de Oliveira	Universidade de São Paulo – EE
Iconography of Edith de Magalhães Fraenkel (1941-1955): Visual evidences of the life history of a pioneering nurse	Ariel Augusto da Silva	Universidade de São Paulo – EE
Prospective study of ventricular function and survival in the acute phase of chagas disease: an animal experimental model	Arthur Lauand Vargas	Universidade de São Paulo – FMRP
Waiting time from diagnosis and treatment of Oral Cancer patients in Sao Paulo from 2012 to 2018	Beatriz Afonso Chiliti	Universidade de São Paulo – FO
Adherence to tuberculosis treatment in the health technical supervision Penha, São Paulo	Beatriz Diório Pires	Universidade de São Paulo – EE
Cafeteria diet induces obesity and insulin resistance. experimental study in rats	Beatriz Kawano de Oliveira	Universidade de São Paulo – FMRP
Cultural adaptation of the portuguese language version of Genograph: a facilitator of nurse-family interaction	Bianca Galvão Elias	Universidade de São Paulo – EERP
The effect of low-level laser on red, infrared wavelengths and their associations in inflammation and classification of oral mucositis induced by 5-fu in hamsters	Bianca Kaori Yshikawa	Universidade de São Paulo – FO
What do youth know about EC? Contributions of a systematic review to the public policies	Bruna Delgado Arid	Universidade de São Paulo –FSP
Evaluation of the Lipid-Lowering Effects of d-Limonene in C57/Bl6 Mice	Bruna Lamesa Costa	Universidade de São Paulo – FCF
Maternal depression and cognitive performance of school-age children	Bruno Fontoura	Universidade de São Paulo – FMRP

Eltrombopag preferentially expands hematopoietic multipotent progenitors in human aplastic anemia	Bruno Quintino de Oliveira	Universidade de São Paulo - FMRP
Notification of incidents in intensive care: contributions to safe practice in child care	Camilla Andrade Santoro	Universidade de São Paulo – EERP
Risk for corneal injury in intensive care unit patients	Carlos Eduardo de Oliveira Pinheiro	Universidade Federal do Acre
Changes in the proteomic profile of acquired enamel pellicle formed 2 hours after rinse with statherin-derived peptide	Carolina Ruis Ferrari	Universidade de São Paulo – FOB
Use of free software in virtual plagiocephaly surgical planning	Cauê Ferreira Gouvêa	Universidade de São Paulo – FOB
Differentiation of bone marrow-derived mesenchymal stem cells from diabetic rats modulated by light therapy	Cecilia Cardoso Kfourri	Universidade de São Paulo – FO
Evaluation of the effectiveness of different training actions on the fit of hearing protectors in individuals without prior knowledge	Daiane Alves Martins	Universidade de São Paulo - FM
Clinical evaluation of phase II clinical trial: treatment of pharyngotonsillitis with photodynamic action	Daniel Basile Velloso de Oliveira	Universidade de São Paulo – IFSC
The relational competence of nurses in surgical center units	Danilo José dos Santos	Universidade de São Paulo – EERP
Maternal emotional reactions after the diagnosis of Down syndrome in the child	Danton Matheus de Souza	Universidade de São Paulo – EE

International Stage – March 2021

Are <i>Candida albicans</i> isolates from the oral cavity of HIV-infected patients more virulent than from non-HIV-infected patients? Systematic review and meta-analysis.	Davi Ariel Nobuo Bepu	Universidade de São Paulo – FORP
Gestational and congenital syphilis: evolution in the state of São Paulo from 2008 to 2018	Debora Faria da Costa	Universidade de São Paulo – EE
Pharmaceutical services as technology within the risk society concept	Derick Carneiro Ribeiro	Universidade de São Paulo - FSP
Effect of muscle pain and placebo perceived as paracetamol in neurophysiological, perceptive responses and performance in constant load test until exhaustion	Douglas Silva Alves	Universidade de São Paulo - EACH
Work-Related Musculoskeletal Disorders and the Instability in nursing work	Eduardo Jose Silva Teixeira	Universidade de São Paulo – EERP
Characterization of the profile of complete edentulous patients and analysis of risk factors to prosthesis-related stomatitis.	Eleonora Nardi Campos	Universidade de São Paulo – FORP
Fetal bovine serum as an interference factor in cell metabolism by apical papilla cells in vitro	Elisa Abreu Diniz	Universidade de São Paulo – FO
Phosphorylation of α 6 protein as a potential biomarker in surgically treated refractory epilepsy	Felipe Issa Chodraui	Universidade de São Paulo – FMRP
The comparison between adipocyte stem cells versus stromal vascular fraction on the viability of a random flap	Feres Camargo Maluf	Universidade de São Paulo – FM
Virtual surgical planning of Treacher Collins Syndrome using a free software	Fernanda Cesar dos Santos	Universidade de São Paulo – FOB
Simultaneous assessment of vocal and laryngeal characteristics of the elderly	Francine Yasmin Sanchez	Universidade de São Paulo – FOB

International Stage – March 2021

The evaluation of the influence of the mandible length, teeth size and mandibular angle on eruption of lower third molars	Gabriela Barbosa Bisson	Universidade de São Paulo – FOB
Validation of the Connecticut smell test (CCCRC) for Brazil	Gabriela Canina Tomazini	Universidade de São Paulo – FMRP
Effectiveness of microwave irradiation in hygiene protocols for complete denture in patients in hospital environment	Gabriela de Arruda Ribeiro	Universidade de São Paulo – FOB
Prevalence of Ankyloglossia and Follow-up of Diagnosed Infants in SUS Care Network	Gabriela Mello Costa	Universidade de São Paulo – FM
Analysis of food ingestion and its correlation with the performance of 5km runners	Gabriela Ueta Ortiz	Universidade de São Paulo - FMRP
Polymeric micelles containing zinc phthalocyanine associated with iontophoresis for photodynamic therapy	Gabriella Bovo Fabio	Universidade de São Paulo –FCFRP
Interactions between actinobacteria isolated from colonies of leaf-cutting ants as elicitors of the production of antifungal compounds	Gabrielle Macedo Carneiro	Universidade de São Paulo – FCFRP
Effect of overexpression of bmp-9 by crispr-cas9 on osteoblastic differentiation of mesenchymal stem cells	Georgia Kors Quiles	Universidade de São Paulo - FORP
Multidisciplinary interventions and health outcomes for institutionalized elderly: a systematic review	Geovana Gomes da Silva	Universidade de São Paulo – EACH
Cytogenetic analysis of tumor cell cells derived from oral squamous cell carcinoma and subpopulations of cancer stem cells	Giovana de Oliveira Koller	Universidade de São Paulo – FOB
Comparison of two methods for measuring patellar height on magnetic resonance imaging	Giovanna Babikian Costa	Hospital das Clínicas da Faculdade de Medicina da USP

International Stage – March 2021

Speech intelligibility with the use of the specific universal hearing protector	Giovanna Cardoso Pinto	Universidade de São Paulo – FM
Undergraduate student participation in an outpatient of physical therapy for children with neuromuscular diseases at a tertiary rehabilitation service in northeast paulista	Giovanna Constantin Silva	Universidade de São Paulo – FMRP
Correlation between gingival color and tissue width in root coverage areas	Giovanna Vicenzotti	Universidade de São Paulo – FOB
Schooling profile of women elite futsal athletes from São Paulo state: the challenge of dual career.	Giulia Maquiaveli da Silva e Ricardo Bisam Filho	Universidade de São Paulo – EEFERP
Evaluation of dental enamel after orthodontic bracket debonding and adhesive remnant removal.	Grasielle de Camargo Gonçalves e Alcebiades	Universidade de São Paulo - FORP
The use of relationship apps and risk behavior among men who have sex with man in Brazil	Guilherme Galdino	Universidade de São Paulo – FMRP
Taka Oguisso: achievements of a Brazilian nursing icon	Gustavo Ramos Vicentini	Universidade de São Paulo – EE
Use of machine learning techniques for digital image classification aiming at the recognition of potential urban areas for the development of Aedes aegypti breeding sites – Campinas	Higor Souza Cunha	Universidade de São Paulo – FSP
Nutritional risk assessment in children and adolescents using the strong kids tool	Isabela Vechiato Guimarães	Universidade de São Paulo – FMRP
Parents' perception of MIH treatment possibilities	Isabella Claro Grizzo	Universidade de São Paulo – FOB
Childhood obesity associated comorbidities: case analysis.	Isabella Hillary Santos Santana	Universidade de Ribeirão Preto

International Stage – March 2021

Articular cartilage restoration using tissue engineering and cell therapy: methods description of imaging (7-T MRI), histological and macroscopic evaluation	Isabella Martins Zaia	Universidade de São Paulo – FM
Evaluation of laboratory findings of patients with covid-19, survivors and non-survivors admitted to a hospital in Ceará	Isis Eduarda Caetano Batista Fontenele	Universidade do Estado do Pará
Exploratory study of Mind-Body Medicine practices for stress control in undergraduate medical students	Ivan Ken Nakamae e Ana Catharina Herbst	Universidade de São Paulo – EE
Health education in municipal daycare centers: training of professionals on choking	Jaqueline Vitorini da Silva	Universidade de São Paulo – EERP
Lipid profile of women in the third trimester of pregnancy attended at basic health units in Araraquara, SP.	Jennifer Xavier Pereira	Universidade de São Paulo – FSP
Predictors of smoking cessation in patients with osseointegrated implants	Joao Abilio Salles	Universidade de São Paulo - FO
Development of Artificial Intelligence Algorithm for Diagnostic Aid for Hepatic Lesions	Joao Martins Cortez Filho	Universidade de São Paulo – FM
Determination of the neonatal line (NNL) thickness in dental enamel in 2 groups of children: pre-mature children and children born at term	Jonas Tostes de Figueiredo	Universidade de São Paulo – FORP
Improvements in tooth whitening: a new experimental formulation	Joyce de Almeida Martins	Universidade de São Paulo – FO
The relation between leadership and patient safety: integrative literature review.	Júlia Cardoso Fernandes	Universidade de São Paulo – EERP
Phonological predictors for the diagnosis of developmental stuttering	Juliana de Paula Gomes	Universidade de São Paulo – FM

International Stage – March 2021

Accuracy of 3D facial scanning using two applications: Bellus3D® and Recap®	Juliana Ignacio de Oliveira	Universidade de São Paulo – FO
Effects of non-invasive mechanical ventilation and incentive spirometry in patients submitted to high abdominal surgery: clinical randomized trial	Karolinne Mota Venancio Corrêa, Karoline Emanuele de Araújo Ferreira e Natália Alves de Azevedo	Universidade Federal de Alfenas
Role of prison security officer in HIV/AIDS care in the prison system: narrative review	Keila Diane Lima de Sousa	Universidade de São Paulo – EERP
Melee combat: exemplary practices in greco-roman wrestling	Leonardo Fernandes Coelho	Universidade de São Paulo – EEFERP
Effect of the incorporation of the antimicrobial agent AgVO ₃ on the properties of a resin cement	Lívia Maiumi Uehara	Universidade de São Paulo – FORP
Feeding practices and gut microbiota in the first year of life in a Amazonian cohort study.	Lucas Damasio Faggiani	Universidade de São Paulo – FSP
Effect of nicotinamide riboside on the growth of normal and premalignant cell lines.	Lucas Gade Assuncao	Universidade de São Paulo – FCF
Methods of processing ivim based magnetic resonance imaging	Lucas Murilo da Costa	Universidade de São Paulo – FFCLRP
The impact of evi1 gene expression on the prognosis of acute myeloid leukemia	Luís Eduardo Moreira Martins	Universidade de São Paulo – FMRP
Perception on care and access to oral health in elderly with symptoms of depressive disorders of a family health unit	Luiza Machado Pedrozo	Universidade de São Paulo – FORP
Body practices in a mental health care context: experiences and meanings	Marcelo Augusto Longo Rodrigues	Universidade de São Paulo – EEFERP

International Stage – March 2021

Bone loss as a consequence of modern behavior	Marcio Koiti Saito	Universidade de São Paulo – FMRP
Stress mindset and its association with salivary cortisol in nursing professionals	Maria Clara Ferreira de Jesus	Universidade de São Paulo – EE
Mesenteric adenitis associated with SARS-COV2 infection, an atypical presentation in children	Maria Emília Moisés Silvestre, Larissa Guimarães Polizeli;Caroline Nascimento Santos e Ana Luiza Col Accorsi	Universidade de Ribeirão Preto
Analysis of the pedagogical political project of the nursing course of the university of São Paulo from the perspective of interprofessional education in health	Maria Sophia Pereira Veronez	Universidade de São Paulo – EE
Dropout in undergraduate courses at the Public Health School/USP	Mariana Spanol de Camargo Pereira e Thais Franca da Rocha	Universidade de São Paulo – FSP
Undergraduate teaching method through active methods: contribution to the care of pediatric and neonatal nursing	Marielle Puchinques Pereira	Universidade de São Paulo – EERP
Sociodemographic and clinical profile of people affected by multi-resistant tuberculosis	Marina Bortoletti Vieira Arantes	Universidade de São Paulo - EERP
Physical, chemical and biological characterization of calcium hydroxide incorporated chitosan scaffolds	Marleni Quispe Quenta	Universidade de São Paulo – FOB
Maternal vitamin D deficiency induces byphasic effects on brown adipose tissue development in rats offspring	Matheus Leonardo Moro	Universidade de São Paulo – FMRP
Use of artificial intelligence as aid in making nasal prosthesis	Matheus Moser da Silva	Universidade de São Paulo – FO
Optimization of CBCT tube current in the assessment of regions at different distances from dental implants	Matheus Urias Cruz Santos	Universidade de São Paulo – FORP

International Stage – March 2021

Effect of cervical skin cooling in the reduction of ⁶⁸ GaPSMA uptake in salivary glands of patients with prostate cancer	Matheus Zanelatto Junqueira	Universidade de São Paulo – FM
Access to health services and social suffering in the experience of transgender people in the Paulista countryside	Maylla Mota	Universidade de São Paulo – EERP
Characterization of Orofacial Motricity and Quality of Life of Patients with Trauma: Comparison Between Different Fracture Locations	Mikaelly Santana de Oliveira	Universidade de São Paulo – FM
Establishment of three-dimensional (spheroid) cells culture in vitro and evaluation of the antitumor effect of the drug release system by photodynamic therapy (tfd) on the treatment of central nervous system pathologies	Milena Dantas da Cruz Sousa	Universidade de São Paulo – FFCLRP
The debriefing in clinical simulation: nursing student's experience	Mirele Coutinho Dias	Universidade de São Paulo – EERP
Can the higher bone density of mandible explain the higher failure rate of orthodontic mini-implants?	Naor Maldonado de Carvalho	Universidade de São Paulo – FO
Musicality scale for implanted children	Nicole França de Sousa	Universidade de São Paulo – FOB
Effects of the therapy with <i>Bifidobacterium animalis</i> subsp. <i>lactis</i> HN019 on experimental periodontitis associated with Metabolic Syndrome. Microtomographic study in rats.	Otávio Francischetti Rodrigues Alves	Universidade de São Paulo – FORP
Primary Care Sensitive Conditions: immunopreventable health problems in a health region	Pablo Henrique Bombonato de Jesus, Carine Carvalho Brito e Raquel Alessandra Passos Mororo	Universidade de São Paulo – EERP
Web content analysis: quality of information about lymphedema in women with breast cancer	Patrícia Harume Gomes Mikawa	Universidade de São Paulo – EERP
Role model influence for the entrance and permanence of youngsters with disabilities in adapted sports: a meta-synthesis	Priscilla Baruffaldi Bittar	Universidade de São Paulo – EEFE

International Stage – March 2021

Effect of antimicrobial photodynamic therapy (aPDT) with methylene blue at different concentrations, varying the pre-irradiation and irradiation times, on the bacterial viability of <i>S. mutans</i> .	Renan Felip Neres Santos	Universidade de São Paulo – FO
Investigation of communicative abilities of children with typical development and with communication disorders	Shelly Lagus	Universidade de São Paulo – FM
Histone Deacetylase Inhibitors: Design, Synthesis and Molecular Modeling of Hybrid Analogs of Belinostat and Sorafenib	Thaina Fujii de Divitiis	Universidade de São Paulo – FCF
Assessment of cell death and gene expression after benzo[a]pyrene and nicotinamide riboside exposure	Thainá Gomes Cury Batista	Universidade de São Paulo – FCF
Endodontic treatment longevity in primary teeth using two restorative approaches: pre forme metal crowns and bulk fill composite resin - Randomized clinical trial	Thais Marchezini Reis	Universidade de São Paulo – FO
Retrospective analysis of the predictability of using prototypes for pre-operative planning of the length of zygomatic implants.	Thales Fabro Vanzela Sverzut	Universidade de São Paulo – FORP
Characterization of the Psychosocial Attention Network - Role of Speech-Language Therapist	Thauane de Oliveira Moura	Universidade de São Paulo – FM
Effect of olympic weightlifting on vertical jump performance in different intensities	Thiago Farias Ribeiro	Universidade de São Paulo – EEFE
Analysis of the essential needs of children accompanied in a home visit program in early childhood	Vagner Cerqueira Fernandes da Costa e Daniel de Oliveira Roman	Universidade de São Paulo – EE
Examiner agreement and accuracy of age estimation by applying integral image filters	Vanessa Miyuki de Lima Sugahara	Universidade de São Paulo – FO
Effects of re-warm-up on physical performance in soccer players	Victor Staibano Gonçalves Wang	Universidade de São Paulo – EEFE

International Stage – March 2021

Comparison of vascular reactivity of the right and left pulmonary arteries in congenital diaphragmatic hernia model in rabbits	Victoria Araujo Oliveira Maia	Universidade de São Paulo – FMRP
A proposal of personalized medicine established on pharmacogenetic profile in elderly patients taking Warfarin.	Vitor Pitta Rodrigues	Universidade de São Paulo – FCF
Educational material to pregnant women who risk to preterm birth: methodological study	Wellery Stefany Nunes Glavina	Universidade de São Paulo – EERP
Spouted bed drying <i>Camellia sinensis</i> extracts: sistem performance and product quality.	Yan Gabriel Arem	Universidade de São Paulo – FCFRP

EXACT AND EARTH SCIENCES

TITLE	AUTHOR	INSTITUTION
Maximum principle for harmonic functions	Aires Eduardo Menani Barbieri	Universidade de São Paulo – ICMC
Virtual Assistants Operational Infrastructure	Alexia Carolina Scheffer da Silva	Universidade de São Paulo – IME
Specificity of biotransformation of secondary compounds from Piper by herbivores	Aline Nair Mendes Costa	Universidade de São Paulo – IQ
Studies on hydration effects in lipidic systems using small angle X-ray Scattering and acoustic levitation	Aline Sanches Perez	Universidade de São Paulo – IF
Identification of anthropogenic and biogenic noise within the Refúgio de Vida Silvestre do Arquipélago de Alcatrazes	Ana Clara Baptista Mariani	Universidade de São Paulo – IO

International Stage – March 2021

Detail petography of melt inclusions prisioned in plagioclase and pyroxene from volcanic rocks in paraná-etendenka province	Ana Maria Afonso Sena	Universidade de São Paulo – IGC
Chemosynthetic primary production in the pelagic region of Cabo Frio (RJ), Cabo de São Tomé (RJ) and Vitória - Trindade Seamount Chain (Southeastern Atlantic Ocean)	Beatriz Riedo Pinheiro	Universidade de São Paulo – IO
The temperature scale and the classification of stars	Bruna Barroso Gomes	Universidade de São Paulo – IAG
The simplicity of M24	Caio Eduardo Candido	Universidade de São Paulo – ICMC
Theoretical background of some statistical tests used in discriminative methods in sensory analysis	Daniela Satie Shiogai	Universidade de São Paulo – FZEA
Using machine learning for the discovery of new high hardness materials	Deivid Aparecido Henrique	Universidade de São Paulo – IF
Black Hole Evaporation and Oppenheimer-Snyder Gravitational Collapse	Eduardo Vinícius da Silva Ribeiro	Universidade de São Paulo – EEL
Desenvolvimento de Protótipo de Delivery Robot Poli USP -1-	Enzo Reis Hanada	Universidade de São Paulo - EP
Synthesis of pt/c catalysts for glycerol electrochemical oxidation and application in direct alcohol fuel cell	Fabiano dos Santos Cursi	Universidade de São Paulo - FFCLRP
SERS Spectroscopy of Inclusion Complexes for the Detection of Pesticides	Felipe Cutolo Lecher	Universidade de São Paulo – IQ
3D perception for autonomous mobile robots navigation using Deep Learning for safe zones detection	Felipe Manfio Barbosa	Universidade de São Paulo – ICMC

International Stage – March 2021

Ab initio Investigation of the Physical and Chemical Properties of Transition Metal Nanoalloys (63 systems)	Felipe Orlando Morais	Universidade de São Paulo – IQSC
Global solvability of a class of differential operators	Fernanda Martins Simão	Universidade de São Paulo – ICMC
Photolysis rate for reaction kinetic study in the vuv energy range	Fernanda Rani Malta	Universidade Federal de São Carlos
Design of a High Field Angle Optical Coupler for Impurity Transport Diagnostics in the TCABR Tokamak	Fernando Antônio Felício Albuquerque	Universidade de São Paulo – IF
Mooring failure detection of floating platforms based on lstm movement prediction	Florian Schopp	Universidade de São Paulo – EP
Meteorological weather station on board of drone: performance of simple models and uncertainty analysis.	Gabriel Ghiraldello Balestra	Universidade de São Paulo – IAG
Using deep learning to predict new ALK-5 inhibitors as anti-cancer agents	Gabriel Zarzana Espinoza	Universidade de São Paulo – EACH
Cloud fraction estimation using all sky cameras	Gabriela Lima da Silva	Universidade de São Paulo – IAG
Itaquareia taphoflora taphonomic studies, Itaquaquecetuba Formation, São Paulo Basin Paleogene, based in a new IGc/USP paleontological collection	Gabriella Augusta Nascimento da Silva	Universidade de São Paulo – IGc
video scene segmentation based on macro or micro input units	Giovana Daniele da Silva	Universidade de São Paulo – ICMC
Protein Dynamics in Extracts, Solid Surfaces and Living Organisms Using Infrared Absorption Spectromicroscopy	Giovana Rossi Mendes	Universidade de São Paulo – IQSC

28th USP International Symposium of Undergraduate Research

International Stage – March 2021

Modeling of the vertical structure of chlorophyll-a concentration in the Vitória-Trindade Ridge region	Giovanna Gimenes de Sena	Universidade de São Paulo – IO
Representation of finite groups and the mckay correspondence	Guilherme da Costa Cruz	Universidade de São Paulo – IME
Deep sea xylophagid bivalves (Xylophagaidae) on woodfalls in the Southwest Atlantic	Guilherme Siqueira Toledo de Carvalho	Universidade de São Paulo – IB

International Stage – March 2021

Transforming Strings by Rearrangement Operations	Gustavo da Silva Teixeira	Universidade Federal do ABC
Machine learning techniques applied to the data quality assurance	Hugo David Costa Pereira e Thiago Badaró Saramela	Universidade de São Paulo – IF
Analytical procedure based on digital images for detection of milk fraud by formaldehyde	Isabela Camargo Goncalves	Universidade de São Paulo – CENA
Superparamagnetic nanodevices as singlet oxygen carriers for cancer therapy	Isabella Nevoní Ferreira	Universidade de São Paulo – FFCLRP
Gevrey hypoellipticity and solvability	Isadora Vieira Coelho da Silva	Universidade de São Paulo – ICMC
Ethanol in rainwater from Ribeirão Preto: 2019/2020	Jacques Florêncio e Letícia da Silva Bombonato	Universidade de São Paulo – FFCLRP
Annihilator transform applied to marine magnetic interpretation of the rias Mamanguá and Paraty-Mirim, Rio de Janeiro, Brazil	Janaina Anjos Melo	Universidade de São Paulo – IAG
Intelligent system of automatic classification of bee species by the morphology of their wings based on computer vision techniques	João Marcos Garcia Fagundes	Universidade de São Paulo – EACH
Detection of failures in the anchoring system of floating platforms by natural frequency of oscillation	José Lucas de Melo Costa	Universidade de São Paulo – EP
Desenvolvimento de Protótipo de Delivery Robot Poli USP -5-	Júlia Morone Drummond Alves	Universidade de São Paulo – EP

International Stage – March 2021

Development of a biosensor for zika and dengue detection	Juliana Naomi Yamauti Costa	Universidade de São Paulo – IFSC
Dynamical evolution of galaxies in clusters: the role of dynamical friction	Kethelin Parra Ramos	Universidade de São Paulo – IAG
Studies of the optical and luminescent properties of earth-alkali (MgF ₂ , CaF ₂ , SrF ₂ , BaF ₂) fluorophosphate glass and glass-ceramic doped with lanthanide ions	Leandro Olivetti Estevam da Silva	Universidade de São Paulo – IQSC
Grouping of items for the design of surgical kits	Leticia Lemos Burla Dias	Universidade de São Paulo – ICMC
A study of the spiral arms of the Galaxy by means of integration of orbits of Open Clusters	Lucas Sampaio de Amorim	Universidade de São Paulo – IAG
Diffusion and acceleration of cosmic rays in simulations of high energy astrophysical phenomena	Luciana Andrade Dourado	Universidade de São Paulo – IAG
Identification and separation of the position isomers from [Ru ₃ O(oac) ₅ (py) ₂ (dppzcl)] ^{pf6} complex	Luis Guilherme Alves do Nascimento	Universidade de São Paulo – FFCLRP
Mapping of habitats at the Lençóis Maranhenses National Park (Maranhão state, Brazil)	Marco Antonio Martins	Universidade de São Paulo – FFLCH
Investigation of the structural, energetic and optical properties of perovskites AB ₃ using the functional density theory	Mariana Candido Gallego	Universidade de São Paulo – IQSC
Flood frequency study in the region of Nhecolândia (Pantanal) based on high spatial resolution satellite images	Mariana Dias Ramos	Universidade de São Paulo – CENA

International Stage – March 2021

Holocene paleosecular variation in central South America from soft-sediments of Gruta do Janelão (MG)	Marianna Tagnin Mollo	Universidade de São Paulo – IAG
Estimate of uncertainties in doppler shift measurements obtained with the plasma rotation diagnostic of the tcabr tokamak	Matheus Bonfim Angelo	Universidade de São Paulo – IF
Theoretical Guarantees for Time Series Forecasting	Matheus Henrique Junqueira Saldanha	Universidade de São Paulo – ICMC
Machine learning applied to the oil/brine interface: unraveling the factors influencing the interfacial tension	Matheus Marim Silva	Universidade de São Paulo – IF
Development of phase reconstruction algorithms for lens-free optical microscope	Natália Portes de Oliveira	Universidade de São Paulo – IFSC
Solar wind and earth magnetosphere interaction	Natália Vitória Garcia Mendes	Universidade de São Paulo – EEL
Event analysis extracted from news for teaching and research institutions	Patrick Eduardo Scuracchio	Universidade de São Paulo – ICMC
Neotectonic and fault reactivation in the central sector of Serra do Mar ridge (São Paulo and Rio de Janeiro states)	Pedro Gouveia Bauli	Universidade de São Paulo – IGc
Disorder and magnetic frustration in rare earth zirconates	Pedro Lucas Oliveira Silva	Universidade de São Paulo – IF
Synthesis and Characterization of Nickel Catalysts Supported on Carbon Nanotubes	Pedro Otavio Ferri Burgel	Universidade de São Paulo – EP

International Stage – March 2021

Development of a quantitative Light Induced Breakdown Spectroscopy technique with femtosecond laser pulses (fs-LIBS)	Rafael de Queiroz Garcia	Universidade de São Paulo – IFSC
Statistical model selection and determining relations of influence in social networks	Renata Prôa Dalle Lucca	Universidade de São Paulo – IME
Nonlinear refraction spectra determination of dye solutions by nonlinear ellipse rotation measurements	Renato Mafra Moysés	Universidade de São Paulo – IFSC
Estimate of the air temperature with remote sensing: a case study for the São Paulo Macrometropolis	Rodrigo Lustosa	Universidade de São Paulo - IAG
Quantum Corrections to Black Hole Entropy	Ronaldo Oliveira Camacho Filho	Universidade de São Paulo – EEL
Aqueous electrolytes for high energy lithium batteries	Samuel Boscaino Lima	Universidade de São Paulo – IQ
Feature Selection By Genetic Algorithms for Classification of Running Patterns	Sergio Baldo Júnior	Universidade de São Paulo – FFCLRP
Natural gas separation in carbon nanotubes using molecular dynamics	Teresa Duarte Lanna	Universidade de São Paulo – IF
Burst size and velocity in Texas Helimak	Theo Louzada Meireles	Universidade de São Paulo – IF
Variants of the shortest path problem	Thiago Lima Oliveira	Universidade de São Paulo – IME

International Stage – March 2021

Signal convolution model and obtaining the response function for determination of fluorescence time	Victor Antonio Marques Carlos Pereira	Universidade de São Paulo – IFSC
Introduction to algebraic geometry	Victor Zaher Cabral Cordeiro	Universidade de São Paulo – ICMC
Capillary acetyl cholinesterase biorreactors in the screening of combinatory collections and natural crude extracts	Yasmin de Melo	Universidade de São Paulo – FFCLRP

HUMANITIES AND SOCIAL SCIENCES

TITLE	AUTHOR	INSTITUTION
Women in soccer: a study of gender relations	Adriano da Silva	Universidade de São Paulo – FE
The Mathematics of Ancient Peoples: the silencing caused by a supposed Greek supremacy	Agatha Carvalho de Lima	Universidade de São Paulo – FE
The poetics of mourning: a theoretical-clinical reflection based on the concept of transformational object	Amanda Christina Victoria de Andrade Melani	Universidade de São Paulo – IP
The construction of the female figure by the medical sciences in São Paulo (1918-1930)	Ana Paula dos Santos	Universidade de São Paulo – FFLCH
"You put us in History": a Social History of Brazilian prostitution in the 1980's and 1990's	Beatriz Alvarenga Bonella de Araujo	Universidade de São Paulo – FFLCH
Criminal dynamics in São Paulo: the quality of the digital record of occurrences and its spatialization	Beatriz Oliveira de Carvalho	Universidade de São Paulo – FFLCH

International Stage – March 2021

Application of the subjective well-being scale in the university context: analysis of life satisfaction component	Bruno Bones Valdo da Costa, Liliane Miyuki Uratsuka e Diego de Miranda Estevam dos Reis	Universidade de São Paulo – IP
The small slaveholders in a supply economy: São Luiz do Paraitinga (1797-1824).	Diego Alem de Lima	Universidade de São Paulo – FFLCH
The self education of popular classes: schooling and experience in São Paulo (1889-1930)	Felipe Morishige Yokoya	Universidade de São Paulo – FE
Seigniorial class and imperial state: the national guard in the Parahyba Valley of Rio de Janeiro (1831 - 1873)	Gabriel González Sterman	Universidade de São Paulo – FFLCH
Virtual reality and cyberchildhood: pathways for the (de)constitution of the subject	Gabriel Lisboa da Silva	Universidade de São Paulo – FE
Home care pedagogical support to the group of bone marrow transplanted patients – gbmp	Gabriela Gobi Faria Nascimento	Universidade de São Paulo – FFLCRP
The textil art of Cecilia Vicuña (1970-1990); Chilean identity, feminism and political resistance	Gabriela Oliveira de Carvalho Verissimo e Melo	Universidade de São Paulo – FFLCH
The concept of ghost in the system of Hegel	Guilherme Augusto Ribeiro Ramalho	Universidade de São Paulo – FFLCH
Decolonial intellectual feminists and their contributions	Helena Costa Franca	Universidade de São Paulo – EACH
The trajectory of a narrative: "Divertimento admirável" over the centuries (XVIII-XXI)	Igor Alexandre Silva Cassemiro	Universidade de São Paulo – MP
The Auto da Fé of Madrid in 1680: aspects of powers and their configurations in seventeenth century	Igor da Silva Barbosa	Universidade de São Paulo – FFLCH

International Stage – March 2021

The Democratic question in Carlos Nelson Coutinho (1965-2012)	Igor Mattos Marquezine	Universidade de São Paulo – FFLCH
The tyranny of the majority in On Liberty by J. S. Mill	Isabel de Almeida Brand	Universidade de São Paulo – FFLCH
A Preventive Intervention - ACT Raising Safe Kids Program: Maternal reports about their learnings.	Izabella de Lucca	Universidade de São Paulo – FMRP
Organizational changes resulting from a teacher training course	Jéssica Ribeiro Freire	Universidade de São Paulo – FFCLRP
The men and the stone: Conjunctural, technological and cultural analysis on the lithic industry of the Água Limpa site (Monte Alto, SP, Brazil), in 2006, 2012 and 2014 expeditions of Turvo Project.	João Vitor Marcon Camargo	Universidade de São Paulo - MAE
From the Chácara do Ferreira to the Chácara do Jockey Park (1946-2016): The production of an urban park in São Paulo	Jose Victor Ferro Guimarães dos Santos	Universidade de São Paulo – FFLCH
Syndicalism and gender: analysis and critical classification of the bibliography	Júlia Rodrigues Barros Alves	Universidade de São Paulo – FFLCH
Textbooks and the teaching of Literature in the Brazilian Secondary School (1940-2012)	Julia Souza Santos Giardino	Universidade de São Paulo – FE
Domingos Ribeiro Filho's militant chronicle in Careta magazine: history, literature and politics in the First Republic	Juliana Amorim da Cruz	Universidade Federal de São Paulo – FFLCH
Partnerships in the coffee slave economy of Saint-Domingue, 1775 -1797	Juliana Cristina Zanezi	Universidade de São Paulo – FFLCH
Urban mermaids: city, gender and space on the female prostitution of São Paulo	Julio César Ferreira de Oliveira	Universidade de São Paulo – FFLCH

International Stage – March 2021

Land occupation and use in International Hub for Sustainable Development (IHSD), Campinas/SP: analysis of spatial and social dynamics and future perspectives.	Júlio Deziró de Oliveira Santos	Universidade Estadual de Campinas
Who and where are the Hospital das Clínicas - University of São Paulo graduates?	Julio Min Fei Zhang e Lucas Kazuto Tagusagawa	Universidade de São Paulo – FM
Pedagogical knowledge across borders: a study on the circulation of ideas by Luiz Alves de Mattos	Keila da Silva Vieira	Universidade de São Paulo – FE
Periodizations as representations: The end of Middle Ages and the Renaissance according to Michel Foucault and Jacques Le Goff	Laura Beatriz Pereira Silva	Universidade de São Paulo – FFLCH
Atlas of the research on artificial intelligence in the state of São Paulo	Laura Simoes Camargo	Universidade de São Paulo – FFLCH
First year undergraduate student profile environmental management at the School of Arts, Sciences and Humanities of the University of São Paulo	Luana de Souza Rocha	Universidade de São Paulo – EACH
Narratives of people arrested on the penalty of deprivation of liberty: anthropological reflections	Lucia Mendes Miguez	Universidade de São Paulo – FFLCH
Behavioral flexibility in creative problem-solving by rats	Luciana Ozeki Matsuchita	Universidade de São Paulo – IP
The school insertion of adolescents after complying with the socio-educational measure of deprivation of liberty	Luisa Sagretti de Souza	Universidade de São Paulo – FE
Experience as a dialectic movement in the Phenomenology of Spirit	Maite Maldonado de Albuquerque	Universidade de São Paulo – FFLCH
Uses, projects and representations of the amazon forest: XVI to XX century	Marcelo Alves Cavalcante Correia	Universidade de São Paulo – FFLCH

International Stage – March 2021

Medical training in the context of primary health care: an experience report about the teaching-learning process	Maria Carolina Paraluppi	Faculdade de Medicina de Marília
Chinese climate governance in the context of growing greenhouse gas emissions	Marina Betetto Drezza	Universidade Estadual de Campinas
The black identity in the room: a psychoanalytic look at the search of an emancipation education	Marina Nunes Dias	Universidade de São Paulo – FE
Clubber Performativity: rave corporalities that occupy the city of São Paulo.	Morgana Franzoni Caetano	Universidade de São Paulo – FFLCH
Taking animal behavior to other classrooms: making use of the collection of a scientific phonoteca for structuring educational materials	Nádia Oliveira Rossingnoli	Universidade de São Paulo – FFCLRP
Black narratives about refuge in the city of Sao Paulo	Phirtia Raianny Rodrigues da Silva	Universidade de São Paulo – FFLCH
Graphic humor in the 1989 presidential elections	Rafael Carlos Pelegrini Silva	Universidade de São Paulo – FFLCH
The land's occupation in the colony of Menino (Urucuaia's valley, MG)	Rafael Rodrigues Nascimento	Universidade de São Paulo – FFLCH
The ambassadors of the slave trade in Portuguese America: diplomacy between tensions and traditions (1795-1805)	Raphael dos Santos Gonçalves	Universidade de São Paulo – FFLCH
The meaning of the revolution in Leôncio Basbaum in the 1950s and 1960s	Renan Somogyi Rodrigues da Silva	Universidade de São Paulo - FFLCH
The domain of excessive: the urbanistic project of Oscar Niemeyer in the Urucuaia valley	Renata Oliveira Ribeiro	Universidade de São Paulo – FFLCH

International Stage – March 2021

The ethnic-racial, religious and families diversity of high school students in São Paulo	Sasha Cruz Alves Pereira	Universidade de São Paulo – FFLCH
University of São Paulo Medical School graduates profile and specialization	Selene Perrotti Zyngier	Universidade de São Paulo – FM
Between the readings and writings, women	Sofia Tonoli Maniezo Zani	Universidade de São Paulo - FE
Ethics, politics and pedagogy in Rousseau's Emile	Sophia Calil Breymaier	Universidade de São Paulo – FE
Waldisa Rússio and the Museum of Industry for the Santa Helena Manufactory: the project of conservation of the cultural heritage of the textile industry of Sao Paulo	Sophia de Oliveira Novaes	Universidade de São Paulo – IEB
Interventions for burnout syndrome: a literature review	Tamy Yuki Damasceno	Universidade de São Paulo – FFCLRP
The Castelinho on Apa street: heritage occupied in the Historic Center of São Paulo	Thais Pereira Rocha	Universidade de São Paulo – FFLCH
Analysis of Defloring Cases in São Paulo City (1850-1870)	Thays Bueno Murrace	Universidade de São Paulo – FFLCH
The formation of the latin american school and educational psychologist: survey and analysis of the scientific research in journals	Thomas Goldenstein Leirner	Universidade de São Paulo – IP
From USP to the community: public services in the city of São Paulo and its possibilities of service to the community for the creation of a health attention network	Vanessa Viana de Souza, Bruna da Silva Cazumba e Camila Costa Oliveira	Universidade de São Paulo – IP
The Revista Brasiliense and the Brazilian Communist Party	Victor Pugliese Pereira	Universidade de São Paulo – FFLCH

International Stage – March 2021

Production of care and coping with violence against women in the House Eliane de Grammont: narratives of an internship experience	Victoria de Angelis	Universidade de São Paulo – IP
The development of regional lng infrastructure in Brazil	Yuri Freitas Marcondes da Silva	Universidade de São Paulo – FFLCH
"History, power, and narrative: Literary representations of the Haitian Revolution in the Caribbean"	Zoë Naiman Rozenbaum	Universidade de São Paulo – FFLCH

APPLIED SOCIAL SCIENCES

TITLE	AUTHOR	INSTITUTION
The consensualism principle in contract law: a comparative study between the roman tradition and Brazilian law	Adriel Gonçalves Maia	Universidade de São Paulo – FDRP
Fundamentals of Quantitative Research in Credit Risk Analysis	Aimée Pichonelli	Faculdade de Ciências Agrárias e Veterinárias
Functionality and accessibility applied in museum s exhibitions and support areas. the potential of post-occupancy evaluation (poe) for the improvement of museological spaces	Aline Dias Assoni	Universidade de São Paulo – FAU
The iberian mobilization as a world laboratory: landscape, material culture, planetary circulation, shared histories and the cities of state of India (daman, goa, bassein, chaul, diu and cochim)	Allan Pedro dos Santos Silva	Universidade de São Paulo – FAU
Public Security: the fundamentals of São Paulo hyper-imprisonment	Ana Luisa Oliveira de Campos	Universidade de São Paulo – EACH

International Stage – March 2021

Contemporary urban transformations: land regularization and resistance	Ana Luiza Vieira Gonçalves	Universidade de São Paulo – IAU
Siegbert Zanettini's hospital architecture: project analysis of case study	Bianca Travaini Xavier Vieira	Universidade de São Paulo – IAU
Understanding the elaboration of value propositions in digital companies.	Bruna Florence de Moura	Universidade de São Paulo – FEA
Estimating the Value of Education for Brazilian Families.	Camila Gonzaga Mizokami	Universidade de São Paulo – FEA
Daily transformations in the city of São Paulo at the beginning of the 20th century: an understanding from the trajectory of José Vitrone	Camila Magalhaes Souto Maior	Universidade de São Paulo – FAU
Association between federal programs for iron supplementation and food fortification in relation to occurrence of hospitalizations due to iron deficiency anemia in Brazil	Carolina Thalya Silva Paulino	Universidade de São Paulo – EACH
Museu Paulista (University of São Paulo): Study of the historical documentation	Catherine Beatriz Pismel Calognomos	Universidade de São Paulo – FAU
Analysis of the Congruence of socio-environmental investments disclosed in the integrated report	Daniel Henrique Devatz	Universidade de São Paulo – FEARP
Models by Le Corbusier: Unité D'Habitation, Marseille. Integrated design of three-dimensional models for didactic purposes: EXECUTION (construction of the model)	Daniel Kenzo Ogushi	Universidade de São Paulo – FAU
Analysis of the flexibilization of ANP Resolution No. 492009 in the cost of ethanol transport in the state of São Paulo	Danilo Martins Menegatti	Universidade de São Paulo – ESALQ
Large banks, subsidiaries and non-banking financial institutions: interest comparison within the financial conglomerates	Davi Ferreira Veronese	Universidade de São Paulo – FDRP

International Stage – March 2021

Gamification applied to Knowledge Organization: an exploratory study on the feasibility of use in Brazil	Dayane Teixeira de Sousa	Universidade de São Paulo – FFCLRP
The mayor Antônio Prado and the black population of the city of São Paulo (1899 - 1911)	Debora Fernandes do Nascimento	Universidade de São Paulo – FAU
Industry 4.0 and agribusiness: survey of applications in Vale do Piracicaba	Eduardo Festa Pompeu	Universidade de São Paulo – ESALQ
Victimization and its consequences on migratory intention in Brazil	Erica Aparecida Rossi dos Reis	Universidade de São Paulo – FEARP
Critical Artistic Practices: Ocupação Prestes Maia and A Batata Precisa de Você	Felipe Leme de Andrade	Universidade de São Paulo – IAU
Maurice herbert dobb's contributions to the british economic historiography	Gabriel Galeti Mauro	Universidade de São Paulo – FEA
Curitiba Modern Art Meetings: the urban dimension of the 6th MAM (1974)	Gabriela Koentopp	Universidade Federal do Paraná
The city in the engineering magazines of the early 20th century	Giovana Franco Albiero	Universidade Metodista de Piracicaba
Emergency shelters with origami and kirigami techniques	Giovanna Sousa Passos	Universidade de São Paulo – EACH
Housing first as public housing program: the case of the municipality of São Paulo	Giuliana Serrano Sperotto	Universidade de São Paulo – IAU
Judicial recovery of the rural entrepreneur	Heloa Leonel Silva	Universidade de São Paulo – FDRP

International Stage – March 2021

The suspension of political rights in cases of criminal conviction that have become final: a brief analysis of the arguments supporting the restriction of voting	Isabela Sanita Atolini	Universidade de São Paulo – FD
The relation between the transformation of law and the structural change of the capitalist system in the Constitution of Weimar: An analysis from the perspective of the theory of Franz Neumann	Isadora Cavallieri Correa	Universidade de São Paulo – FD
Models by Le Corbusier: Unité D’Habitation, Marseille. Integrated research of three-dimensional models for didactic purposes: ANALYSIS	Jose Augusto Beltrami Filho	Universidade de São Paulo – FAU
The construction of law and democracy in Jürgen Habermas's work	Julia Chechinato Passador	Universidade de São Paulo – FD
Art and market: Inadvertently logics – Banksy	Júlia Simmelink Clemente de Souza	Universidade de São Paulo – IAU
A discussion on commodity, value and land on Flávio Villaça's theory	Julio de Campos Andrade Lamparelli	Universidade de São Paulo – FAU
Analysis of the financial statements of the company Grazziotin s.a.	Karen Veloso de Lima, Laura Helena Inacio; Ana Maria Raab Forastieri Piccino e Leticia Maria Cardeal Leonel	Universidade de São Paulo – ESALQ
Analysis of real adjustment on grains and fertilizers road freight prices: the Port of Paranaguá case	Karina Midori Kobayashi Omosako	Universidade de São Paulo – ESALQ
Collective housing and urban space in São Paulo: Icaraf Building	Karina Yuki Kagohara	Universidade de São Paulo – FAU
Algorithmic mediations in material culture of consumption: mapping applications of fashion-affordances and logics	Keise Santos Novaes	Universidade de São Paulo – ECA
Risk of sweetening related to the work of third parties at the Federal Institute of Piauí	Laíse do Nascimento Silva	Instituto Federal de Educação, Ciência e Tecnologia do Piauí

International Stage – March 2021

Confiscatory disappropriation in case of slave labor exploration in rural properties	Larissa Ferreira Porto	Universidade de São Paulo – FDRP
An analysis of the Public Sphere: The construction of the concept by Jürgen Habermas and the critical counterpart of Nancy Fraser	Laura Chain Martins	Universidade de São Paulo – FD
Representation in architecture and the concept of assembly: a study on the collages of Mies van der Rohe.	Leonardo Cesar Soares	Universidade de São Paulo – IAU
Mundurukania: documentary and material sources for the study of spatial understanding in munduruku culture (18th and 19th centuries).	Luis Felipe Clemente Nunes	Universidade de São Paulo – FAU
The open door of the cabinet: Augusta Street as an urban dispute space and symbol for the LGBTQIA+ community	Luiz Felipe Souza da Silva	Universidade São Judas Tadeu
The determinants of private Research and Development (R&D) expenditure	Luiza Caixeta Piazza	Universidade de São Paulo – IRI
Overproduction of urban space in the interior of São Paulo: the ACP of São José do Rio Preto 2000-2019.	Marcela Vanessa Santos Rossi	Universidade de São Paulo – FAU
The formation of Parque Peruche as a black territory	Maria Gabriela Feitosa dos Santos	Universidade de São Paulo – FAU
Integrated Communication: descriptive study of its applications in scientific production and in communication agencies and advisories in the Brazilian context	Mariana Araujo Rodrigues Chapouto Lopes	Universidade de São Paulo – ECA
Residential furniture from the first editions of the design award of the Museu da Casa Brasileira	Mariana Barbosa Firigato	Universidade de São Paulo – FAU
ART AND MARKET: Young British Artists (YBA)	Marina Spadoti Dantas	Universidade de São Paulo – IAU

International Stage – March 2021

The work of Adolf Franz Heep: formal composition and urban insertion	Mateus da Silva Barufi	Universidade de São Paulo – IAU
Comparative studies on methods, tools and techniques for creative development in design based on the sets of cards Co-Creation Cards of Design Skolen Kolding and IDEO Method Cards of University of Stanford and book references	Mayara Menezes do Moinho	Universidade de São Paulo – FAU
The influence of physical space on access to justice in five Brazilian states	Mônica Viana Nunes da Silva	Universidade de São Paulo – FEARP
Analysis of open government data on public security	Nagila Camila Felix de Oliveira	Universidade de São Paulo – EACH
Data available to the public: proposal of 57 indicators for the preparation and implementation of public policies specific to the lgbt community	Natalia Fiorante Breda	Universidade de São Paulo – EACH
Environmental performance of iconic residential buildings of modern architecture in São Paulo: the case of louveira building, with focus on insolation and thermal performance	Nicolas Locali de Figueiredo	Universidade de São Paulo – FAU
American trade war externalities: direct and indirect effects over Brazilian and other countries exports of iron and steel	Pedro Cavalcanti Costa Marques	Universidade de São Paulo – IRI
Zanine 100 years: from model to design	Rafael Arakaki de Souza	Universidade de São Paulo – FAU
The constructive system and the functionality of a museum facility housed in an old building with historical value from the perspective of post-occupancy evaluation (POE)	Raissa Melo de Souza	Universidade de São Paulo – FAU
The role of the Inter-American Court of Human Rights in Brazilian Law	Ramon Barbosa Baptistella	Universidade de São Paulo – FD

International Stage – March 2021

Monetary policy and price dynamics in Brazil	Raphael de Oliveira Rodrigues	Universidade de São Paulo – FEA
Cultural Evolution and the Law: A study on the concept of Law in the work of B.F. Skinner	Ricardo Feliz Okamoto	Universidade de São Paulo – FD
Constitutional Jurisdiction: A Brazilian and Portuguese dialogue	Téo Halben Guerra Leal	Universidade de São Paulo – FD
The geography of deaths recorded by the police in São Paulo: a study of the digital record of occurrences database	Thais Rodrigues Bueno da Silva	Universidade de São Paulo – FFLCH
City in dispute, urban social reality of Florianópolis-SC: conflicts and planning policy in the commodity city	Tomas Carrera Massabki	Universidade de São Paulo – IAU
The association between organizational digital maturity and their international expansion process	Victor Freitas Neves	Universidade de São Paulo - FEA
Measurement of the fiscal goodwill of the companies financed by the BNDES	Victor Regino de Oliveira	Universidade de São Paulo - FEARP
Interactions of ergonomic and thermal comfort: internal areas of buildings of modernist Brazilian architecture, in São Paulo, produced between 1930 and 1964 and current buildings.	Vitoria de Mendonca	Universidade de São Paulo – FAU
Built to suit contracts: new challenges in the Brazilian real estate market	Vitória Mattos Gonçalves	Universidade de São Paulo – FDRP
Study of concrete formulations containing recycled aggregates using low cement content	Wellington de Aquino Traldi	Universidade de São Paulo – IAU
Meanings of Legal Education: a look at the Brazilian military dictatorship	Yuri Goncalves Hidd Vasconcellos	Universidade de São Paulo – FD

ENGINEERING

TITLE	AUTHOR	INSTITUTION
Product mix portfolios for the brazilian sugarcane sector, considering lignin derivatives	Alex Tetsu Miyagi	Universidade de São Paulo – EP
Densification of ZnO through sintering in one and two steps temperature for applications in electronic devices	Andre Sabatino Barao	Universidade de São Paulo – FZEA
Low speed synchronous motor based on Vernier effect	Anna Giulia Queiroz Costa	Universidade de São Paulo – EP
Design and tests of slots devices of high-lift aircrafts operating at low Reynolds	Bruno de Favari Signini	Universidade de São Paulo – EESC
Design of a pneumatic muscle for an exoskeleton	Caique de Oliveira Kobayashi	Universidade de São Paulo – EP
Toxic effects of neonicotinoid pesticide tiametoxam on aquatic organisms	Carlos Seiya Higashi Lo	Universidade de São Paulo – EEL
Sensor fusion based on Kalman filter	Carolina Barbosa Amaro Dias	Universidade de São Paulo – EESC
Dambreak flow forecast in Embankment Dams	Carolina Del Pilar Icho Castillo	Universidade de São Paulo – EP
Graphical interface and laser control of a monitoring system for photodynamic therapy	Fabiana Toon de Araujo	Universidade de São Paulo – EESC
Development of compact series elastic actuators for lower limb exoskeletons	Fabio Henrique Masetto de Gaitani	Universidade de São Paulo – EESC

International Stage – March 2021

Contribution to the hydraulic, structural and functional study of pervious concrete pavements.	Fernando Dias Hofacker dos Santos	Universidade de São Paulo – EP
Numerical simulation of linear elastic bars using the state-based peridynamic theory	Gabriel Neves Queiroz	Universidade de São Paulo – EESC
Modeling of biological effects due to ultrasound in sonothrombolysis	Giovana Longatti Baptista	Universidade de São Paulo – EP
Powder activated coal in the treatment of contaminated water with the pesticides fipronil and 2,4-D.	Giovana Spinelli Negro	Universidade de São Paulo – EESC
Influence of cold working on the stainless steel macroabrasion	Guilherme Henrique Alves Andrade	Universidade Federal de Uberlândia
Sugarcane bagasse as substrate for metal recovery	Guilherme Salvador Peres Neto	Unesp Araraquara
Characterization and variability assessment of the domestic sewage produced by the USP residential complex	Henrique de Alcaraz Reale	Universidade de São Paulo – EP
Development of a graphical pre- and post-processing interface for the computational modeling of granular and particulate materials	Henrique Gropelli	Universidade de São Paulo – EP
Ab initio determination of mechanical and magnetic properties of the hexagonal C14 Laves phase Fe ₂ Ti	Igor Hideki Cabianca Yamamoto	Universidade de São Paulo – EEL
Influence of chemical treatment with H ₃ PO ₄ on calcium phosphate formation on the surface of Al ₂ O ₃ / ZrO ₂ composites	Ingra Giovanna Soares Perez	Universidade de São Paulo – FZEA
Hydrogen production from thermophilic anaerobic digestion of dairy industry wastewater: influence of reactor start-up strategy	Isabela Mehi Gaspari Augusto	Instituto Mauá de Tecnologia

International Stage – March 2021

Opto-electronic plethysmography: volume calculation	Isabelle Tamarozi	Universidade de São Paulo – EP
Model-based software development platform for embedded systems for instrumentation	Joao Matheus Siqueira Souza	Universidade de São Paulo – EESC
Analysis of mechanical behaviour of composite single lap bonded joints	Joao Pedro Pereira dos Santos	Universidade de São Paulo – EESC
Airfoil Optimization Using Singular Value Decomposition (SVD)	Joao Victor Marques Andreotti	Universidade de São Paulo – EP
Photochemical Persistence of Organic Pollutants in Aqueous Medium: A Kinetic Study	Juan Carlos Ogea	Universidade de São Paulo – EP
Synthesis of graphene oxide nanoparticles through sucrose carbonization	Julia Beatriz Camargo Bachega	Faculdade de Tecnologia de Sao Paulo - Fatec
Evaluation of the Impact of Representing Saturation on the Attraction Area of the GENROU Model	Leticia Alves Doniak	Universidade de São Paulo – EESC
Semiconductor Multilayer Systems for OLEDs and OPVs	Lucas Higashiyama Schmitt	Universidade de São Paulo – EP
Particle size of ZnO precursors obtained by spray drying	Luís Otávio Sartor	Universidade de São Paulo – EEL
Analysis of Values Influence in a Circular Organizational Culture	Luisa Lavagnini Barboza	Universidade de São Paulo – EESC
Evaluation of 2G ethanol production from sugarcane bagasse pretreated by hydrodynamic cavitation assisted-oxidative process	Maria Laura Silva Cunha	Universidade de São Paulo – EEL

International Stage – March 2021

Spatial environmental indicators: subsidies for the implementation and monitoring of the Municipal Plan of Protected Areas, Green Areas and Free Spaces	Maria Luiza Petroni	Universidade de São Paulo – EP
Phase equilibrium in the precipitation of insulin using organic solvents	Mariana Barbosa Tavares	Universidade de São Paulo – EP
Microstructural and hardness evaluation of sae 1020 and sae 8620 steels quenched in high severity quenchants	Marina Eichemberger Martinez Mergulhao	Universidade de São Paulo – EESC
Thermodynamic analysis of the systems ethanol + glycerol and water + glycerol	Matheus Cardoso Nunes	Universidade de São Paulo – EEL
Classification of arrhythmias using multilayer perceptron neural networks	Natalia Nagata	Universidade de São Paulo – EP
Structural optimization on biplane aircrafts	Rafael de Oliveira Lin	Universidade de São Paulo – EP
Influence of surface treatment on Al ₂ O ₃ , ZrO ₂ and Al ₂ O ₃ / ZrO ₂ nanocomposites coated with calcium phosphates	Rafaele dos Santos Mano	Universidade de São Paulo – FZEA
CO ₂ encapsulation in cementitious composites based on hydrated MgO compounds and reinforced with cellulosic fibers	Ricardo Leonel de Oliveira	Universidade de São Paulo – FZEA
Evaluation of oxidation resistance of beta-21S, titanium-base alloy, and variants.	Saimon Domenegheti	Universidade de São Paulo – EEL
Robotic simulation, analysis and subsystem control of a quadruped robot using Gazebo software	Vinicius Aquilante Policarpo	Universidade de São Paulo – EESC
Model and development of a flight simulator	Vitor Facchini	Universidade de São Paulo – EP

International Stage – March 2021

CFD-aided design of a single-channel microreactor for the photocatalytic reduction of CO ₂ and H ₂ O	Vitor Hiroshi Zancanella	Universidade de São Paulo – EP
--	--------------------------	--------------------------------

LINGUISTICS, LETTERS AND ARTS

TITLE	AUTHOR	INSTITUTION
Study and phonographic recording of the pianistic work by Alexandre Levy	Adriano Guilhen Bastoge Ferreira	Universidade de São Paulo – ECA
Ideal leadership, real threat: sophists as strategoi's coaches in Xenophon's Memorabilia (3.1-3)	Amanda Carvalho de Godoy	Universidade de São Paulo – FFLCH
Linguistics scientific articles in Brazil and in Chile: the speech genre specificities	Andressa Leticia Villagra Silva	Universidade de São Paulo – FFLCH
For the phonetic atlas in the route of bandeirante philology (1996-2000) - part 2	Carina Maria da Silva	Universidade de São Paulo – FFLCH
Artists of the Japanese Delegation and Awards at the São Paulo Biennial between 1951 and 1963	Celine Miyuki Hirose	Universidade de São Paulo – MAC
The metadiegesis in Orpheus'chant: a study of multiplication of narrative voices in Ovid's Metamorphoses (Book 10)	Clara Spalic Gonçalves	Universidade de São Paulo – FFLCH
For a more comprehensive musicology: perception and formal analysis of musical works of six Brazilian composers of the 20th and 21st centuries	Danilo Aparecido do Carmo Alves	Universidade de São Paulo – ECA
The triptych of the incest: commented translation from French into Brazilian Portuguese of Barbara's songs	David Fregate da Silva	Universidade de São Paulo - FFLCH
Women in Portuguese America: Mapping the writings of	Elisa Hardt Leitão Motta	Universidade de São Paulo - FFLCH

International Stage – March 2021

women and about women in the Portuguese Atlantic space using Digital Humanities methods		
A Probabilistic Text Classifier for the categories "homophobic" and "non-homophobic"	Gabriel Nicolosi Barbosa de Souza	Universidade de São Paulo - FFLCH
Saussurean reverberations: a comparative analysis of chapters from Course of General Linguistics in Russian and Brazilian translations	Igor Bezerra de Mesquita	Universidade de São Paulo - FFLCH
Theatrical mediation at the school: from spectator to player	Jady Salviano Bonifacio	Universidade de São Paulo – ECA
Imbrications between literature and history: critical reading of Vozes anoitecidas, by Mia Couto	José Felix do Nascimento Neto	Universidade de São Paulo - FFLCH
Intonation and gender. what is?	Juan Costa Carreiro	Universidade de São Paulo - FFLCH
Literature and language in Merleau-Ponty	Julia Tozzi Muraro	Universidade de São Paulo – FFCLRP
Confluences between Order and Disorder: Historical-Structural Relations in Orgia dos Loucos	Larissa Shimizo Marchi Braga	Universidade de São Paulo – FFLCH
The corporal awareness of the percussionist in your daily study of snare drum in the Alexander technique perspective	Leticia Maria Antunes	Universidade de São Paulo – FFCLRP
A survey of studies on the Paiteir-Surui language: works of the Surui people from Rondonia	Livia Gouvêa de Carvalho Moura	Universidade de São Paulo – FFLCH
The Harmonics of Claudius Ptolomy	Luís Alberto Goulart Firmino	Universidade de São Paulo – FFLCH

International Stage – March 2021

Description and datation of the Lybro de Magyka (MS. 5-2-32, Biblioteca Colombina, sevilla)	Lúiza Pereira de Oliveira	Universidade Federal de Minas Gerais
Desire and impossibility in Ana Cristina Cesar's poetry	Mauricio da Silva Reis	Universidade de São Paulo – FFLCH
An empirical study of the theory of reception in the theater field: analysis of Stabat Mater, by Janaína Leite	Pedro Henrique Chaves Bueno	Universidade de São Paulo – ECA
A lesbian in Portuguese America: the process and the network of homoerotic relationships of Felipa de Souza, the great fanchona of Bahia	Raquel de Paula Guets	Universidade de São Paulo – FFLCH
De Rerum Natura: the origins of language in Lucretius' Book V (v.925-1240)	Raquel Goes Casini	Universidade de São Paulo – FFLCH
Game of Thrones, A Narrative Construct by Costumes	Soraia Noronha de Almeida	Universidade de São Paulo – EACH
Subjectivity and affection images in the poetic work of Eucanaã Ferraz	Victória Zanetti Largura	Universidade de São Paulo – FFLCH

MULTIDISCIPLINARY

TITLE	AUTHOR	INSTITUTION
Lead concentration doubles in soils of the Rio Doce estuary under anoxic conditions	Barbara Garcia Machado	Universidade de São Paulo – ESALQ
Variability in western tropical Atlantic upper water column stratification during the MIS6-4	Beatriz Felix da Silva	Universidade de São Paulo – EACH

International Stage – March 2021

Machine learning project: use of the support vector machine classifier (svm) and sentinel-2 images for regional planning of the paulista water circuit	Breno Malheiros de Melo	Universidade de São Paulo – IAU
Evaluation of the 3d objects rendering with augmented reality in surgery environment	Calvin Suzuki de Camargo	Universidade de São Paulo – EESC
Spatialization of ecosystem services: a proposal for the case of the Jararaca stream basin, in São Carlos (SP)	Edimilson Rodrigues dos Santos Junior	Universidade de São Paulo – EESC
Analysis of de novo transcriptome assemblies in sugarcane	Felipe Vaz Peres	Universidade de São Paulo – CENA
Socio-environmental indicators survey of small municipalities in the metropolitan region of the Paraíba Valley and northern coast: Cunha, Lagoinha and São Luiz do Paraitinga	Fernando Sampaio do Amaral	Universidade de São Paulo – EACH
Macrometrópole paulista: environmental ethics and the production of holes	Gabriel Machado Araujo	Universidade de São Paulo – FFLCH
Evaluation of the wound healing potential of mesenchymal cell biocuratives in hydrogel matrix in the treatment of induced skin ulcers in diabetic mice	Gabriel Martins da Costa Manso	Universidade de São Paulo – FMRP
Gender migratory selectivity: refugee women in the state of maternity	Giovanna Miron Fernandes de Moura	Fundação Universidade Federal do Abc - Ufabc
Adult human brain slices cultures as a tool to evaluate beta-amyloid peptide aggregates effects	Giovanna Orlovski Nogueira	Universidade de São Paulo – FMRP
Meals Quality Evaluation by Machine Learning	Giulia Duo Cardella	Universidade de São Paulo – EP
Changing the perception of girls about programming through ludic workshops	Laura Steinert de Freitas	Universidade de São Paulo – EACH

International Stage – March 2021

Day and night with the stars: an astronomical newsletter	Leticia Lanza de Oliveira	Universidade de São Paulo – IAG
The luminous path: nationalism and peasantry by Mao Zedong and José Carlos Mariátegui	Luis Guilherme Nobrega Amorim	Universidade de São Paulo – FFLCH
Effect of enzyme characteristics on the yield and properties of cellulose nanocrystals	Matheus Teixeira Basso	Universidade de São Paulo – EEL
Lab das minas: female engagement in science and technology in the pandemic world	Mycaelli Cerqueira de Lima	Universidade de São Paulo – EACH
Absorption and fluorescence spectroscopies studies of nanocomposites formation from jataí stingless bee propolis (<i>tetragonisca angustula</i>) and nano-clay halosite for drug delivery systems.	Natalia Cristina Pinto Vieira	Universidade de São Paulo – EACH
Development and synthesis of nanobiocatalysts for the pre-treatment of lignocellulosic biomass aiming to obtain fermentable sugars for use as carbon source in biorefineries	Yasmin Cristhine de Souza Melo	Universidade de São Paulo – EEL
